

THE CENTER FOR RECOVERY RESOURCES

At The Center for Recovery Resources, we believe that the key to long-term recovery is a strong foundation of support and community. The Center is a communal space for individuals and families seeking support for substance misuse and addiction-related issues. We host an array of peer-based, non-clinical programs, services, and drug-free/sober community events.

Conveniently located in downtown Claremont, The Center aims to serve communities throughout the greater Sullivan County region. We collaborate with local businesses, physical and mental health providers, police and emergency response personnel, social service agencies, and educators to help address the needs of their respective clients, patients, and students through mutual referrals.

Substance abuse can and does affect people from all walks of life and age groups. Recovery from substance abuse is a process of change in which people improve their wellness and strive to reach their full potential. There will be no judgment and you will be treated with respect while in The Center. We are staffed by educated professionals and dedicated volunteers who believe that recovery is possible for everyone.

At The Center, recovery is built on access to evidence-based recovery support services and peer support groups. The Center helps individuals by providing:

- Recovery coaching
- Peer support groups
- Educational workshops
- Peer-based, non-clinical programs
- Support for individuals and families
- Drug-free/sober community events
